

6. 箱线图 `plt.boxplot`

箱线图：近两周学习时长分布

```
import matplotlib.pyplot as plt
```

```
plt.rcParams['font.sans-serif'] = ['SimHei']
```

1. 准备数据：一组一维数据

```
study_hours = [2.5, 3, 2, 4, 3.5, 5, 3, 2.5, 4.5, 3, 3.5, 2, 4, 6]
```

2. 绘制箱线图

```
plt.boxplot(study_hours,
```

```
            patch_artist=True, # 允许填充箱体颜色
```

```
            boxprops={'facecolor': 'lightblue'}) # 设置箱体颜色
```

3. 添加标题和轴标签

```
plt.title('近两周每日学习时长分布箱线图')
```

```
plt.ylabel('学习时长(小时)')
```

4. 显示图表

```
plt.show()
```
